# MGT. SYSTEM (e.g. ILO)

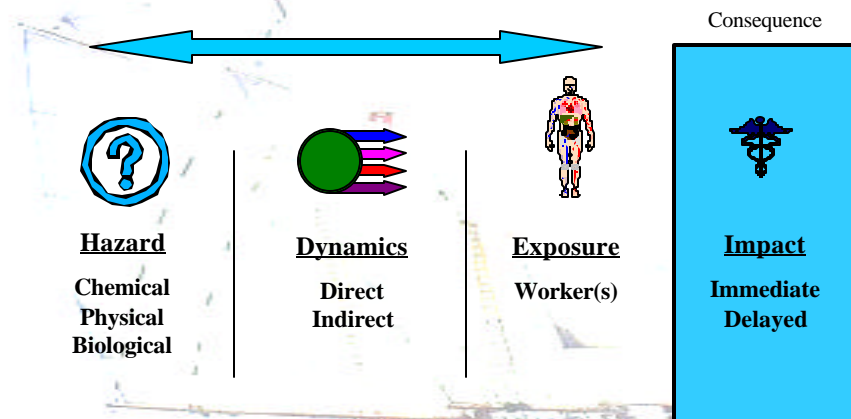

```
graph TD; Policy[Policy] --> Organizing[Organizing]; Organizing --> Planning[Planning & Implementation]; Planning --> Evaluation[Evaluation]; Evaluation --> Action[Action for Improvement]; Action --> Policy; Continual[Continual Improvement];
```

The diagram illustrates a Management System (e.g., ILO) as a continuous cycle. It features five blue rectangular boxes arranged in a circle, connected by curved arrows indicating a clockwise flow. The boxes are labeled: **Policy** (top), **Organizing** (top-right), **Planning & Implementation** (bottom-right), **Evaluation** (bottom-left), and **Action for Improvement** (top-left). In the center of the cycle, the text **Continual Improvement** is displayed, with four straight arrows pointing outwards towards each of the five boxes, signifying that continual improvement is a central, ongoing process that informs all stages of the system.
